

Amy Myers Jaffe

Ms. Amy Myers Jaffe, President of AMJ Energy Consulting, is the senior energy advisor and project coordinator for [energy research](#) at the James A. Baker III Institute for Public Policy of Rice University. She is the principal author of and research director for four energy studies published by the Institute including: Japanese Energy Security and Changing Energy Markets: An Analysis of Northeast Asian Energy Cooperation and Japan's Evolving Leadership Role in Asia; Chinese and Long-Range Asian Energy Security and Unlocking the Assets: Energy and the Future of Central Asia and the Caucasus and The Political, Economic, Social, Cultural, and Religious Trends in the Middle East and the Gulf and Their Impact on Energy Supply, Security and Pricing.

Ms. Jaffe is currently leading a new study at the Baker Institute on Energy Supply and Trade in Latin America. She is co-editor of the upcoming volume "Energy in the Caspian Region: Present and Future" to be published by MacMillan and the Project Director for the Independent Task Force "[Strategic Energy Policy: Challenges for the 21st Century](#)," co-sponsored by the James A. Baker III Institute for Public Policy and the Council on Foreign Relations.

Previously, she served as Senior Economist and Middle East analyst for Petroleum Intelligence Weekly. Ms. Jaffe is the recipient of the 1994 Award for Excellence by the International Association for Energy Economics. She is the author of numerous articles on oil geopolitics, the Middle East, and the Caspian basin region including "The Shocks of a World of Cheap Oil" published in Foreign Affairs in January 2000. She is a contributor to several book volumes on the Caspian region and has authored several academic articles that have been published in the Energy Journal, IISS Survival, among other journals. A well-known journalist, Ms. Jaffe has been a contributor for The Wall Street Journal, The New York Times, Dow Jones International and the Associated Press newswires, and the MidEast Report. Ms. Jaffe has appeared on numerous television broadcasts including CNN and Good Morning America and is quoted widely in the media as an energy expert. She graduated from Princeton University with a degree in Arabic studies.
