

**Ms. Grace Mang**

**China Program Director  
International Rivers**

Ms. Mang coordinates International Rivers' efforts to strengthen the environmental and social standards of China's overseas dam builders and their global environmental footprint. Before joining International Rivers in 2010, she worked as an environment and water Policy Adviser in the Australian Prime Minister's Department on major environmental reform issues such as river basin management of the Murray-Darling basin, national environment protection laws and biodiversity protection strategies. Ms. Mang is a lawyer by training and specializes in environment and water law. She graduated from the University of Sydney with a degree in Economics and Law.
