

David C. Logan

Ph.D. Candidate in Security Studies at the Princeton University School of Public and International Affairs and incoming Stanton Nuclear Security Fellow at the MIT Security Studies Program.

David C. Logan is a Ph.D. Candidate in Security Studies at Princeton University's School of Public and International Affairs and a Fellow in Princeton's Center for International Security Studies (CISS). During the 2021-2022 academic year, he will be a Stanton Nuclear Security Fellow at the Massachusetts Institute of Technology Security Studies Program.

Mr. Logan's principal research areas include nuclear strategy, arms control and nonproliferation, strategic stability, extended deterrence, and the U.S.-China security relationship. He has conducted research for the Brookings Institution, the Arms Control Association, the Carnegie-Tsinghua Center for Global Policy, and the National Defense University's Center for the Study of Chinese Military Affairs. His research has been published in *Journal of Strategic Studies*, *Asian Security*, and *The Nonproliferation Review*. He has also written for *Foreign Affairs*, *Joint Force Quarterly*, the *Bulletin of the Atomic Scientists*, *War on the Rocks*, and *The National Interest*.

Mr. Logan holds an M.P.A. and an M.A. in Public Affairs from Princeton University and a B.A. in Political Science from Grinnell College. He speaks and reads Chinese, Russian, and Italian.

Mr. Logan has not previously testified before the Commission.
