Elsa Kania

Adjunct Senior Fellow, Technology and National Security Program at the Center for a New American Security

Elsa B. Kania is an Adjunct Senior Fellow with the Technology and National Security Program at the Center for a New American Security. Her research focuses on Chinese military strategy, military innovation, and emerging technologies. Ms. Kania's book, *Fighting to Innovate*, is forthcoming with the Naval Institute Press in 2023. At CNAS, Ms. Kania has contributed to the Artificial Intelligence and Global Security Initiative and the "Securing Our 5G Future" program, while acting as a member of the Digital Freedom Forum and the research team for the Task Force on Artificial Intelligence and National Security. Ms. Kania also works in support of the U.S. Air Force's China Aerospace Studies Institute through its Associates Program, is a Non-Resident Fellow in Indo-Pacific Defense with the Institute for the Study of War, and is a Non-Resident Fellow with the Australian Strategic Policy Institute's International Cyber Policy Centre. Currently, Ms. Kania is a PhD candidate in Harvard University's Department of Government. Her dissertation examines military learning and innovation in comparative perspective.

Ms. Kania has testified before the Commission twice, most recently at its 2019 hearing titled "Technology, Trade, and Military-Civil Fusion: China's Pursuit of Artificial Intelligence, New Materials, and New Energy."
