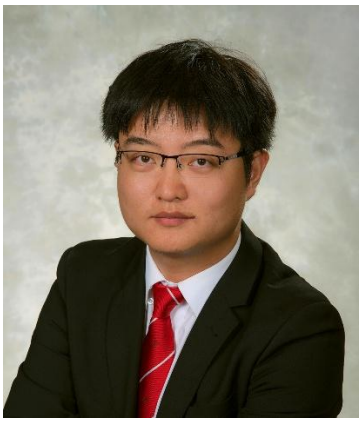
John Fan, Associate Professor of Finance, Griffith University



John Fan is an Associate Professor of Finance at Griffith Business School, where his research focuses on the structural evolution of global commodity markets and the internationalization of Chinese derivatives. He serves as a strategic advisor to institutional asset managers, providing expertise on systematic investment strategies and market structure.

His research has been published extensively in leading peer-reviewed journals, including the *Journal of Banking & Finance*, the *Journal of Futures Markets*, and the *Journal of Commodity Markets*. Dr. Fan is a globally recognized contributor to the field of commodity pricing; his insights are frequently cited by the *Australian Financial Review* and prominent industry forums. He serves as a referee for the *Financial Analysts Journal*, the premier outlet for applied investment research, and is the co-editor of a *Journal of Futures Markets* special issue on *New Trends in Quantitative Finance*.

Dr. Fan's academic career is deeply rooted in the commodity industry. His doctoral research was fully funded by a specialist commodity hedge fund, which has since been integrated into Janus Henderson Investors. He has received competitive research grants from the Australian Government and the Europlace Institute of Finance. He holds a Ph.D. in Finance from Griffith University.

Dr. Fan has not previously testified before the Commission.
