

Roger Handberg

Professor, Department of Political Science
University of Central Florida

Dr. Roger Handberg, professor, Political Science Department, specializes in space policy, national security policy, and science and technology. He teaches courses dealing with government policies in science and technology, economic and business policy, and American security policy, particularly military space policy and ballistic missile defense.

Handberg has worked at UCF since 1972. He has published nine books and more than 168 articles and book chapters plus presented over 139 papers. His recent books include “Chinese Space Policy: A Study in Domestic and International Politics,” “International Space Commerce: Building from Scratch,” “Reinventing NASA and the Quest for Outer Space,” “Ballistic Missile Defense and the Future of American Security: Agendas, Perceptions, Technology & Policy,” and “Seeking New World Vistas: The Militarization of Space.” Presently working on a book titled the “Golden Triangle of Space,” examining the Chinese, Indian and Japanese space programs and their impact on the international space policy environment. Other work focuses on the contradictory impact of advances of space technology on military operations by the United States and other powers.

Handberg previously served for two years in the U.S. Army. He earned his Ph.D. in Political Science from the University of North Carolina.
