

Carl Pray
Distinguished Professor, Rutgers University

Dr. Carl Pray is a distinguished professor in the agricultural, food and resource economics department at the School for Environmental and Biological Sciences of Rutgers, the State University of New Jersey. Dr. Pray earned his PhD in economic history from the University of Pennsylvania. The focus of his research is agricultural science and technology policy in China, South Asia, Africa and Latin America.

Dr. Pray is the president of the International Consortium for Applied Bioeconomy Research. He is currently leading research projects on the economics of agricultural research by private firms in India and China and on the impact of agricultural policy changes on agriculture in Africa and Asia. He recently completed a project funded by Templeton Foundation on barriers to the spread of genetically engineered food crops in China, India, and East Africa. The results of his research have been published in 80 journal articles including *Science*, *Nature*, the *American Journal of Agricultural Economics*, *Economic Development and Cultural Change*, *Research Policy*, seven books and 45 book chapters. His past research was funded by the Bill and Melinda Gates Foundation, the China Natural Science Foundation, the Rockefeller Foundation, the World Bank, the US Department of Agriculture, and others.

Dr. Pray has not previously testified before the Commission.
